

Dear colleagues,

We are pleased to announce on 8 and 9 July 2016, in Paris, the First International Symposium on Coccyx Disorders and to introduce the program.

Even today, coccydynia remains a poorly understood condition in which the care is often deemed unsatisfactory, both by doctors and by patients. It is, as we all know, the source of considerable discomfort in everyday life. However, although research has intensified in recent years, no meeting was ever dedicated to this topic! In order to fill this gap, we decided to organize this International Symposium. Renowned experts will present their work in the fields of history, anatomy, comparative anatomy, pathophysiology, clinical, imaging and therapeutics. As you can see the program is as complete as possible. Much space is devoted to the discussion and exchanges because everyone's experience in such a narrow field is irreplaceable. We chose for this meeting the beautiful surroundings of the Natural History Museum, the Great Gallery of Evolution. We look forward to welcome you and hope to see you soon in Paris!

Jean-Yves Maigne, MD and Levon Doursounian, MD

- 08:30 History of coccydynia.
Jon Miles. Oxford, UK
- 08:45 Anatomy of the coccyx and related structures.
Roger Robert. Nantes, France
- 09:00 Comparative anatomy.
Cyrille Cazeau, Paris, France
- 09:15 Discussion

■ The different lesions of the coccyx and how to evidence them

- 09:30 Dynamic films. Technique and results. The different lesions of the coccyx. Pitfalls in interpretation.
Jean-Yves Maigne. Paris, France
- 10:00 Clinical examination of the painful coccyx.
Jean-Yves Maigne. Paris, France
- 10:15 MRI and CT scanner of the coccyx.
Isabelle Pigeau. Paris, France
- 10:30 Discussion

10:45-11:15 Coffee break

■ Differential diagnosis of common coccydynia

- 11:15 Sacrococcygeal tumours and cysts in adults.
Charles Court. Paris, France
- 11:30 Pudendal neuralgia.
Mansour Khalfallah. Biarritz, France
- 12:00 Chronic anal pain and anorectal dyssynergia.
Frédérique Le Breton. Paris, France
- 12:15 Neurologic and myofascial disorders mimicking coccygodynia.
Jean-Marie Berthelot, Jean-Jacques Labat. Nantes, France
- 12:30 Discussion

12:45-14:15 Lunch

■ Conservative management of common coccydynia

- 14:15 Coping with coccyx pain.
Jon Miles. Oxford, UK
- 14:30 Injections of the coccyx (discs and spicules). Technique and results.
Jean-Yves Maigne. Paris, France
- 14:45 Ganglion impar injection.
Patrick Foye. Newark, USA
- 15:00 Manual therapy for coccyx pain.
Michael Durtnall. London, UK
- 15:15 Discussion

■ Surgical management of coccydynia

- 15:30 History of coccygectomy.
Levon Doursounian, Dominique Hervault. Paris, France
- 15:45 Surgical technique.
Levon Doursounian. Paris, France
- 16:00 Indications, follow-up and results.
Levon Doursounian. Paris, France
- 16:15 Discussion

16:30 End of Day 1

Social program: a private visit of the Great Gallery of Evolution + dinner

PROGRAM - SATURDAY 9TH

■ Free presentations

- 09:00 Osteotomy-fusion: a treatment for coccyx dislocation.
Gianluca Maestretti. Fribourg, Suisse
- 09:15 Results of CT guided injections for coccydynia.
Elif Gurkan. Istanbul, Turkey
- 09:30 A Sting in the Tail.
Michael Durtnall. London, UK
- 09:45 Day surgery for coccyx patients. Experiences from St. Olavs Hospital.
Rainer G Knobloch. Trondheim, Norway
- 10:00 Rare lesions of the coccyx.
Jean-Yves Maigne. Paris, France
- 10:15 Discussion

10:30-11:00 Coffee break

■ Intractable coccyx pain

- 11:00 Management of surgical failure.
Jean-Yves Maigne, Levon Doursounian. Paris, France
- 11:15 Intractable coccyx pain. What can do a pain specialist?
Anne Lassaux. Paris, France
- 11:30 Discussion

■ Videos

- 11:45 Injections. Cases presentation.
Jean-Yves Maigne. Paris, France
- 12:00 Closing remarks.
Jean-Yves Maigne and Levon Doursounian

12:15 End of the Symposium
